Unit IT Steering Committee Executive Summary
November 27, 2012

Committee Members: Ed Adams, Jim Bujaki, Bill Connett, George DiGiacomo, Ted Hanss, Lynn Johnson, Paul Killey, Elle Loesch, Bill Manspeaker, Andy Palms, Laura Patterson, David Sweetman, Regis Vogel, Matt Walters, John Wilkin

Strategic Plan Chapter Review - Administration (D. Mero)
This area includes: finance, HR physical resources, student life, fundraising, supply chain, research administration, and student administration. There is concern around not only aging systems, but the workforce who currently know how to run those systems that may be retiring.

Some systems have been consistently upgraded, but some will need to be replaced or moved to a shared service that may be SaaS solutions or another technology. Review of many processes and services will be analyzed before making any changes.

Some comments received include confirming the scope to cover Michigan IT, and leveraging administrative data from the big data perspective to minimize copying and duplicating data.

ITS Service Portfolio Owner Role (J. Gohsman)
ITS is moving to a shared services model using Plan, Build, Run, Manage to improve service strategy and alignment, and delivering on expectations. This role will help better understand products and services and whom it impacts.

The next meeting is Tuesday, December 11th, and will be reviewing the Communications Strategic Plan Chapter.
